PROFILE

I design AI products that make advanced capabilities useful without taking control away from people. At Ninox, generation sits beside the real editor. At Bibel TV, redesigning entry into a live AI feature raised weekly starts 153% on iOS and 85% on Android. I pair conversational craft with consumer research, hands-on prototyping and Principal-level influence.

Generation with control

prompt-to-database AI beside the real editor

153% · 85%

higher weekly starts on iOS and Android after an AI redesign

Research changed strategy

seller evidence overturned automation-first direction

EXPERIENCE

Head of Product Design

2025 – Present

Bibel TV (consumer streaming across iOS, Android, web and connected TV) Hamburg + Berlin, Germany

- Lead product design and product management for Bibel TV’s streaming experience across iOS, Android, web and connected TV, turning emerging product ideas into testable direction and delivery specifications.
- Redesigned entry into a live AI passage feature using usage data and clearer product explanation. Weekly starts rose 153% on iOS and 85% on Android in four-week before-and-after averages.
- Design and agentially develop “Bibel erklärt” (working title), a Conversational AI Bible Study App in development. I own product direction, UX, UI, motion and its structured onboarding.
- Prototype new concepts with Claude Code against real APIs. External engineering works from the web and Android prototypes and reuses their code in delivery.
- Designed and shipped a Microsoft Copilot support workflow. It drafts viewer responses in the team’s handbook voice while staff review, edit and send every answer.
- Built one design-system source for four platforms with Storybook, DTCG tokens, automated checks and accessible light and dark color generation.

Head of Platform and Design

2024 – 2025

ChurchDesk (vertical SaaS across six European markets) Copenhagen, Denmark · Remote from Berlin

- Led product design and product management for the core platform. I wrote specifications, ran the engineering ticket board and served as the German launch customer’s main contact.
- Reframed a funeral-booking request as a reusable platform capability in the existing calendar and form builder for funerals, room rentals, baptisms and weddings.
- Reduced coordination time by 70% with 90% booking acceptance at the launch customer, then rolled the capability out across the customer base.
- Shipped an accessibility capability that helped customers meet new legal requirements automatically on websites built and hosted with ChurchDesk.

Head of Product Design · Interim Head of Product

2023 – 2024

Ninox Software GmbH (no-code business platform across DACH, the UK and the US) Berlin, Germany

- Senior Leadership Team member with five direct reports across product design and UX writing; hired two people, promoted two and coached the design lead.
- Led product and design together for four months, with three product managers and one data scientist joining the design and UX-writing team.
- Owned the Storybook and Figma Variables design system and established joint governance with engineering.

Director of Design2016 – 2021

Datameer GmbH (enterprise data analytics for regulated banks and insurers) · Berlin · team across Germany and New York

- Led the distributed design team, with two UX designers reporting to me. I represented design alongside Product and Engineering during a new-product pivot.
- Built a research method for hard-to-reach analysts using iterative screening on usertesting.com when ordinary panels could not find the right users.
- Designed data-dense analytics and uncertainty states across complex enterprise workflows and co-built the product design system.

UX Strategy Lead2014 – 2016

Spreadshirt (international fashion and print-on-demand marketplace) · Leipzig, Germany

- Led a nine-month seller-experience redesign after two previous attempts had failed. The team grew from three people into larger implementation teams.
- Ran in-person interviews with shop owners that overturned an executive assumption. Users valued creative control, so the direction moved from full automation to controlled automation.
- Built a mobile t-shirt designer in Axure RP with the UI designers over one intensive week. User feedback was strongly positive and the prototype moved into production.
- Worked inside a product triad and facilitated executive workshops to align Product, Engineering and business leaders around research and a tangible alternative.

CURRENT AI PRODUCT PRACTICE

Independent product and consulting work alongside employed roles.

Ninox AI onboardingSummer 2025

Designed prompt-to-database onboarding with the CEO and technical co-founder. The generated schema renders in the real editor beside chat for direct inspection and editing.

Aperto spiritual guide2025 – Present

Designing a product in development with passive personalization over time and direct personalization of the daily meditation; implementation signals and outcomes are still being defined.

EARLIER CAREER PROGRESSION

Product & UX Strategist · *Hypoport hub SE* · 2021 – 2022 · Berlin / Lübeck · productized shared services with executive stakeholders

Independent Product Design Consultant · *Oratio&Co* · 2016 – Present · Remote · product strategy, UX direction and prototypes

Senior Mentor · *CareerFoundry* · 2016 – 2026 · Remote · coaching and mentoring product designers

UX Manager · *HairDirect* · 2013 – 2014 · Lancaster, Pennsylvania, USA · complex consumer e-commerce

User Experience Designer · *andCulture* · 2012 – 2013 · Harrisburg, Pennsylvania, USA

Web Designer / Front-End Developer · *HOPE International* · 2009 – 2012 · Lancaster, Pennsylvania, USA

Earlier · *Web Designer, Bajaa.com and freelance* · 2000 – 2009 · Düsseldorf, Germany

EDUCATION

M.A. Leadership
Kairos University, South Dakota, USA
Completed 2026

LANGUAGES

German · native
English · C2, fluent

SKILLS

Conversational AI and human-centered automation

conversational UX · prompt and context design · direct manipulation beside chat · human-in-the-loop workflows · error recovery and user control · guided discovery

Strategic direction and craft depth

in-person interviews · user testing · workshop facilitation · journey design · ambiguity framing · solution exploration · testable assumptions · usage analysis

UX, UI and prototyping

interaction design · high-fidelity UI · accessibility · Figma · Axure RP · Claude Code · prototypes against real APIs · iOS · Android · web · connected TV

Systems and technical delivery

Storybook · DTCG design tokens · Style Dictionary · Figma Variables · HTML · CSS · TypeScript · SwiftUI · Kotlin · continuous integration

Principal influence

cross-organizational influence without line authority · Product, Engineering and Data Science partnership · mentoring · design critique · stakeholder alignment · distributed teams · native German · English C2 · Berlin-based
