PROFILE

Today at Bibel TV I turn AI into shipped products, internal workflows and executable prototypes while leading product design. At Ninox I owned capacity, allocation, team structure and development across design and UX writing. At Datameer I led a distributed enterprise-design team across Germany and New York.

Nine people

two functions and four disciplines at Ninox

Five years

distributed design leadership
across Germany and New York

AI in production

and executable prototypes

EXPERIENCE

Head of Product Design

2025 – Present

Bibel TV (consumer streaming across iOS, Android, web and connected TV) Hamburg + Berlin, Germany

- Lead product design for Bibel TV's streaming products and hold product-management responsibility for the multi-platform redesign.
- Introduced agentic prototyping as a delivery method. I build against real APIs with Claude Code; the external engineering agency works from the prototypes and reuses their code in delivery.
- Designed and shipped an MS Copilot workflow for viewer support. It drafts in the team's handbook voice while staff review, edit and send every response.
- Built an AI-assisted fundraising workflow end to end: performance analysis, a Claude Project with clarification loops, a web prototype and a production skill for campaign content.
- Currently designing and developing a Conversational AI Bible Study App as its sole designer, product manager and developer.
- Built one design-system source for four platforms, with rules that run locally and in continuous integration so external delivery stays on system.

Head of Platform and Design

2024 – 2025

ChurchDesk (vertical SaaS for churches and dioceses across six European markets) Copenhagen · Remote from Berlin

- Led all product design and held product management for the main platform.
- Turned a funeral-booking brief into a reusable platform capability. One build supported further booking workflows and achieved 70% less coordination time with 90% booking acceptance at the launch customer.
- Shipped an AI-assisted accessibility capability that helped customers meet new legal requirements on websites created and hosted with ChurchDesk.

Head of Product Design · Interim Head of Product

2023 – 2024

Ninox Software GmbH (no-code business platform across DACH, the UK and the US) Berlin, Germany

- Senior Leadership Team; five direct reports across product design and UX writing.
- Owned the design function's operating model: capacity, allocation, prioritization, team structure and processes for a dedicated team working across product priorities.
- Led product and design together for four months: nine people across two functions and four disciplines, including three product managers and a data scientist.
- Created levelling and growth structures across both design disciplines; ran reviews, hired two and promoted two.
- Coached a design lead through a difficult stakeholder relationship and redesigned the meeting conditions that had been excluding an engineering collaborator.
- Owned the design system and established joint governance with engineering through a cross-functional working group and documented contribution process.

Director of Design

2016 – 2021

Datameer GmbH (enterprise data analytics for regulated banks and insurers) · Berlin · team across Germany and New York

- Led UX across Germany and New York for five years, with two UX designers reporting to me.
- Raised the design function's maturity during a new-product bet. Research gained executive backing and design entered roadmap conversations.
- Built the research method needed to reach analysts inside regulated banks and insurers, where standard panels could not reach the right users.
- Designed data-dense enterprise analytics including query builders, pivot tables, aggregated JSON views and sample-based result states.

EARLIER CAREER PROGRESSION

Product & UX Strategist · *Hypoport hub SE* · 2021 – 2022 · Berlin · service-to-product transformation

UX Strategy Lead · *Spreadshirt* · 2014 – 2016 · Leipzig · consumer print-on-demand platform

Senior Mentor · *CareerFoundry* · 2016 – 2026 · Remote · coaching and mentoring product designers

UX Manager · *HairDirect* · 2013 – 2014 · Lancaster, Pennsylvania, USA

User Experience Designer · *andCulture* · 2012 – 2013 · Harrisburg, Pennsylvania, USA

Web Designer / Front-End Developer · *HOPE International* · 2009 – 2012 · Lancaster, Pennsylvania, USA

Earlier · *Web Designer, Bajaa.com and freelance* · 2000 – 2009 · Düsseldorf, Germany

EDUCATION

M.A. Leadership

Kairos University, South Dakota, USA

Completed 2026

LANGUAGES

German · native

English · C2, fluent

SKILLS

Design organization and operations

capacity, allocation and prioritization · team structure and processes · levelling and growth plans · hiring and performance reviews · design-system governance · product and design leadership

AI product and transformation

Claude Code as daily method · conversational UX · human-in-the-loop workflows · prompt and context design · agentic prototyping against real APIs · AI-assisted research synthesis

Complex B2B products

no-code ERP platform · enterprise analytics · operational workflow productization · data-dense interfaces · regulated users · design systems

Executive and distributed leadership

Senior Leadership Team · VP and C-level partnership · distributed Germany and New York team · German native · English C2 · Berlin-based · willing to travel regularly to Bangalore
