

Tobias Treppmann

Fashion e-commerce · evidence-led product decisions · real-code prototyping and systems

LOCATION Berlin, Germany EMAIL hello@treppmann.design PORTFOLIO treppmann.design/for/zalando LINKEDIN linkedin.com/in/tobiastreppmann

PROFILE

I turn ambiguous consumer-product questions into tested, buildable direction. At Spreadshirt, in-person seller research overturned an automation-led strategy and a mobile prototype reached production. At Bibel TV, I now pair usage data with real-code prototypes across iOS, Android, web and connected TV. I bring fashion e-commerce context, systems craft and Principal-level influence to Zalando.

Research changed strategy

in-person seller interviews overturned an automation-led product direction

Prototype to production

a one-week mobile t-shirt designer made the decision tangible and shipped

Four-platform craft

current consumer work across iOS, Android, web and connected TV

EXPERIENCE

Head of Product Design

2025 – Present

Bibel TV (consumer streaming across iOS, Android, web and connected TV) Hamburg + Berlin, Germany

- Own product design and product management for the multi-platform redesign. I write and prioritize the work external engineering builds, then verify features in beta and production.
- Redesigned the entry into an AI feature using usage data and a clearer product explanation. Weekly starts rose 153% on iOS and 85% on Android in four-week before-and-after averages.
- Prototype in real code against production APIs. External engineering ships from the prototypes and reuses their code.
- Built one design-system source for four platforms with Storybook, DTCG tokens and automated checks.
- Built a production color engine for content artwork in OKLCH. It generates light and dark themes while holding accessible contrast inside the algorithm.

Head of Platform and Design

2024 – 2025

ChurchDesk (vertical SaaS across six European markets) Copenhagen, Denmark · Remote from Berlin

- Led product design and product management for the core platform. I wrote specifications, ran the engineering ticket board and served as the main contact for the German launch customer throughout discovery, delivery and rollout.
- Reframed a funeral-booking request as a reusable platform capability. It shipped through the existing calendar and form builder for funerals, room rentals, baptisms and weddings.
- Reduced coordination time by 70% with 90% booking acceptance at the launch customer, then rolled the capability out across the customer base.

Head of Product Design · Interim Head of Product

2023 – 2024

Ninox Software GmbH (no-code business platform across DACH, the UK and the US) Berlin, Germany

- Senior Leadership Team member with five direct reports; hired two people and promoted two.
- Owned the Storybook and Figma Variables design system with joint engineering governance.
- Led product and design together for four months, with three product managers and a data scientist joining the design and UX-writing team.

Datameer GmbH (enterprise data analytics for regulated banks and insurers) · Berlin · team across Germany and New York

- Built a research method for hard-to-reach analysts, using iterative screening on usertesting.com when ordinary panels could not find the right users.
- Designed data-dense analytics and uncertainty states across complex enterprise workflows.
- Led UX across Germany and New York; two designers reported to me.

Spreadshirt (international fashion and print-on-demand marketplace) · Leipzig, Germany

- Led a nine-month seller-experience redesign after two previous attempts had failed. The team grew from three people into larger implementation teams.
- Ran in-person interviews with shop owners that overturned an executive assumption. Users valued creative control, so the direction moved from full automation to controlled automation.
- Built a mobile t-shirt designer in Axure RP with the UI designers over one intensive week. User feedback was strongly positive and the prototype moved into production.
- Worked inside a product triad and facilitated executive workshops.

HairDirect (consumer e-commerce for configurable hair-replacement products) · Lancaster, Pennsylvania, USA

- Led the mobile checkout redesign for a complex configured product. It enabled the company's first mobile orders and changed the executive view of mobile demand.

EARLIER CAREER PROGRESSION

Product & UX Strategist · *Hypoport hub SE* · 2021 – 2022 · Berlin / Lübeck · productising internal services

Independent Product Design Consultant · *Oratio&Co* · 2016 – Present · Remote · product strategy, UX direction and prototypes

Senior Mentor · *CareerFoundry* · 2016 – 2026 · Remote · coaching and mentoring product designers

User Experience Designer · *andCulture* · 2012 – 2013 · Harrisburg, Pennsylvania, USA

Web Designer / Front-End Developer · *HOPE International* · 2009 – 2012 · Lancaster, Pennsylvania, USA

Earlier · *Web Designer, Bajaa.com and freelance* · 2000 – 2009 · Düsseldorf, Germany

EDUCATION

M.A. Leadership

Kairos University, South Dakota, USA

Completed 2026

LANGUAGES

German · native

English · C2, fluent

SKILLS

Consumer product strategy and research

problem definition · long-term product direction · in-person interviews · user testing · workshop facilitation · UX writing partnership · executive narratives

Experimentation and product data

testable assumptions · rapid prototypes · A/B testing · GA4 and usage analysis · before-and-after comparison · success metrics · iteration

UI craft and prototyping

high-fidelity UI · interaction design · accessibility · Axure RP · Figma · prototypes against production APIs · iOS · Android · web · connected TV

Design systems and technical delivery

Storybook · DTCG design tokens · Style Dictionary · Figma Variables · HTML · CSS · TypeScript · SwiftUI · Kotlin · continuous integration

Principal influence

Product, Engineering and Data Science partnership · mentoring · design critique · community workshops · stakeholder alignment · native German · English C2 · Berlin-based
