

Tobias Treppmann

Product and design leadership for complex builder products · current n8n implementation · AI product judgment
LOCATION Berlin, Germany EMAIL hello@treppmann.design PORTFOLIO treppmann.design/for/n8n LINKEDIN linkedin.com/in/tobiastreppmann

PROFILE

I lead design for complex builder products and still build. At Ninox, I opened a no-code platform to less technical users without hiding its data model. At Bibel TV, I now use n8n in a live-tested AI product pipeline. I pair strategic influence and people leadership with direct product and implementation judgment.

805 clips

from 299 videos in the September 2026 n8n corpus snapshot

Nine people

across four disciplines as interim Head of Product

2 hires

plus two promotions, career levels and difficult people decisions

EXPERIENCE

Head of Product Design

2025 – Present

Bibel TV (consumer streaming across iOS, Android, web and connected TV) Hamburg + Berlin, Germany

- Lead product design and product management across four consumer platforms, turning emerging AI and media-product ideas into research, product direction, working prototypes and delivery specifications.
- Built and live-tested an n8n sermon pipeline for “Bibel erklärt,” an AI Bible-study app in development. It turns videos into transcripts, source-linked clips, chapters and retrievable material.
- Simplified the pipeline’s critical path and fixed two live failures: an n8n branch-order race and a broken upstream node reference. Re-verified the corrected workflow end to end.
- Built a corpus of 805 sermon clips from 299 videos, wired into the app’s live chat.
- Design and agentically develop “Bibel erklärt” across product direction, UX, UI, motion and onboarding. I prototype against real APIs; external engineering reuses the code in delivery.
- Built one design-system source for four platforms with Storybook, DTCG tokens, automated checks and accessible color generation.

Head of Platform and Design

2024 – 2025

ChurchDesk (vertical workflow SaaS across six European markets) Copenhagen, Denmark · Remote from Berlin

- Led design and product management for the core platform, setting specifications and delivery priorities.
- Turned a customer-specific funeral-booking request into a reusable platform capability in the existing calendar and form builder, serving funerals, room rentals, baptisms and weddings.
- Reduced coordination time by 70%; booking acceptance reached 90%.

Head of Product Design · Interim Head of Product

2023 – 2024

Ninox Software GmbH (no-code business platform across DACH, the UK and the US) Berlin, Germany

- Led five people across product design and UX writing as a Senior Leadership Team member, with responsibility for the design function, career development and quality.
- Led Product and Design together for four months: nine direct reports across four disciplines.
- Hired two people, promoted two and made two exit decisions. Established a levelling framework, ran performance reviews and coached the Design Lead through a strained engineering relationship.
- Made Design a peer to Product and Engineering in roadmap decisions and established joint design-system governance.
- Later designed prompt-to-database onboarding with the CEO and technical co-founder. The generated schema appears in the real data-model editor, where less technical users can inspect and correct it.

Director of Design

2016 - 2021

Datameer GmbH (enterprise data analytics for regulated banks and insurers) · Berlin · team across Germany and New York

- Led two UX designers across Germany and New York for a complex analytics product.
- Designed data-dense builder experiences including query builders, pivot tables, aggregated JSON views, result cards, filtering and uncertainty states.
- Built a research method for hard-to-reach analysts using iterative screening on usertesting.com when ordinary panels could not find users inside regulated banks and insurers.

UX Strategy Lead

2014 - 2016

Spreadshirt (international fashion and print-on-demand marketplace) · Leipzig, Germany

- Led a nine-month seller redesign after two failed attempts.
- Research with shop owners overturned an automation-first strategy. Users valued the creative step most, so the direction moved toward automation that preserved control.
- Built a mobile product-designer prototype with the UI team in one week; the interaction moved into production.

EARLIER CAREER PROGRESSION

Product & UX Strategist · *Hypoport hub SE* · 2021 - 2022 · Berlin / Lübeck · helped turn case-by-case internal services into standard offerings

Independent Product Design Consultant · *Oratio&Co* · 2016 - Present · product strategy, UX direction and working prototypes

Senior Mentor · *CareerFoundry* · 2016 - 2026 · coaching and mentoring product designers

UX Manager · *HairDirect* · 2013 - 2014 · Lancaster, Pennsylvania, USA

User Experience Designer · *andCulture* · 2012 - 2013 · Harrisburg, Pennsylvania, USA

Web Designer / Front-End Developer · *HOPE International* · 2009 - 2012 · Lancaster, Pennsylvania, USA

Earlier · *Web Designer, Bajaa.com and freelance* · 2000 - 2009 · Düsseldorf, Germany

EDUCATION

M.A. Leadership

Kairos University, South Dakota, USA

Completed 2026

LANGUAGES

German · native

English · C2, fluent

SKILLS

Product design leadership

product and design strategy · team structure · hiring · career levels · performance reviews · coaching · design critique · cross-functional decision making · distributed teams

AI, automation and configurable products

AI · workflow orchestration · no-code platforms · AI agents · conversational UX · human-in-the-loop systems · inspectable generation · failure recovery · user control

Research, data and growth surfaces

qualitative research · user testing · community feedback · usage analysis · onboarding · activation · time to value · product strategy under ambiguity

Craft and design engineering

interaction and visual design · complex product systems · Figma · Storybook · DTCG design tokens · Claude Code · prototypes against real APIs · TypeScript · accessibility · design QA

Languages and location

native German · English C2 · Berlin-based · authorized to work in Germany and the EU
