

Tobias Treppmann

Senior Consultant — Strategy & Digitalization — builds the recommendation, not just the deck

LOCATION Berlin, Germany EMAIL hello@treppmann.design PORTFOLIO treppmann.design/for/scty LINKEDIN linkedin.com/in/tobiastreppmann

PROFILE

Fifteen years turning research and stakeholder conversations into things that ship: a booking capability built into ChurchDesk's platform instead of a standalone module, an AI system running in production at Bibel TV, and Hypoport's shift to a productized service catalog, run through workshops with department heads rather than a slide deck. I build the recommendation as well as write it.

70% / 90%

less coordination time; launch-customer booking acceptance

Workshops, not reports

recurring reviews with department heads changed Hypoport's service model

EXPERIENCE

Head of Product Design

2025 - Present

Bibel TV (broadcaster, linear-to-streaming transformation — iOS, Android, web, connected TV) Hamburg + Berlin, Germany

- Build the recommendation, not just the deck. Prototype against real and self-built APIs, giving the external engineering agency working software to evaluate.
- AI support copilot, live in production. Drafts replies in the support handbook's own wording, with a restricted-topic list in the system prompt and every send decision human.
- AI fundraising system, built solo end to end. Performance analysis, prompt architecture, a prototype, then a production Claude skill shipping into in-app notifications.
- Led competitive analysis against global entrants.
- Own UI quality across four platforms.

Head of Platform and Design

2024 - 2025

ChurchDesk (vertical ERP for churches and dioceses — DE / DK / UK / SE / NO / CH) Copenhagen, Denmark · Remote from Berlin

- Rebuilt the process into the platform. The booking capability cut coordination time 70%, reached 90% acceptance at launch, then rolled out to every customer.
- A legal deadline met automatically. Shipped the capability that met the EU Accessibility Act on customer websites, under GDPR plus church data-protection law.
- Product and design together. One direct report.

Head of Product Design

2023 - 2024

Ninox Software GmbH (no-code business platform — DACH / UK / US) Berlin, Germany

- Senior Leadership Team, five direct reports including a design lead. Hired two, promoted two.
- Interim Head of Product, July–October 2023 — four more reports across a second function, at once.
- Research at a scale a team cannot read. Claude over thousands of forum posts for sentiment and feature requests, with Dovetail as the shared repository.

Product & UX Strategist

2021 - 2022

Hypoport hub SE (shared services arm of listed Hypoport SE) Berlin / Lübeck, Germany · Remote

- Organizational change, delivered through the room, not a report. Recurring workshops and reviews with department heads moved individualized support toward a standardized, scalable service catalog.
- Executive design-thinking training, and the Holacracy Facilitator and Secretary roles — running the meetings where the organization edits its own structure.

Director of Design

2016 - 2021

Datameer GmbH (collaborative data analytics for top US / CA / UK banks and insurers) Berlin, Germany · team across Germany and NYC

- Five years of data-dense interfaces for a regulated client base. Pivot tables, column charts, aggregated JSON views and filter logic.
- Functional head with two direct reports.

EARLIER CAREER PROGRESSION

Independent Consultant · *Oratio&Co* · 2016 - Present · Remote · Software AG, Bibel TV, Ninox Software GmbH, individual coaching

Senior Mentor · *CareerFoundry* · 2016 - 2026 · Remote · a decade mentoring and coaching designers

UX Strategy Lead · *Spreadshirt* · 2014 - 2016 · Leipzig, Germany · 200+ people

Earlier · *UX Manager, UX Designer, Web Developer* · 2009 - 2014 · Pennsylvania, USA

EDUCATION

M.A. Leadership

Kairos University, South Dakota, USA

Completed 2026

LANGUAGES

German · native

English · C2, fluent

SKILLS

Consulting and organizational change

Client relationship management as primary point of contact · executive-facing workshops and design-thinking training · service-to-product transformation · process redesign with a measured outcome

Owning the full loop

Writing the brief · designing the flow · prototyping it in real code · running the ticket board · shipping under ambiguity

Prototyping and engineering proximity

Real-code prototypes against real APIs, across a company boundary · HTML, CSS, TypeScript, SwiftUI, Kotlin, React

Regulated and compliance-bound delivery

GDPR plus church data-protection law across six countries · EU Accessibility Act compliance shipped · German native, English C2
