

Tobias Treppmann

Founding Designer — visual systems, web builds with AI tools, print

LOCATION Berlin, Germany EMAIL hello@treppmann.design PORTFOLIO treppmann.design/for/pickem LINKEDIN linkedin.com/in/tobiastreppmann

PROFILE

I design the visual systems that keep a brand consistent across every surface, and I build the digital ones myself. At Bibel TV I built the color engine that themes 10,000+ videos from their own artwork, contrast guaranteed. When every streaming app goes dark, I took ours light, on research. Print since 2009; Figma and Affinity today.

10,000+ videos

themed from their own artwork, contrast guaranteed, live

83%

backed the light-mode brand call in a concept survey

EXPERIENCE

Head of Product Design

2025 – Present

Bibel TV (streaming apps — iOS, Android, web, connected TV) Hamburg + Berlin, Germany

- Color computed from the artwork, not picked by hand. I built a k-means extraction engine in OKLCH that themes 10,000+ videos; every theme is validated for WCAG contrast. Live in production.
- Took the app light when every streaming app goes dark. Research showed users expected warmth from the brand; a concept survey backed it, with 83% choosing light or mixed over dark-only.
- Closed the gap to the 2025 broadcast rebrand across iOS, Android, web and connected TV.
- I prototype in real code against production APIs, web first, then Android. An external engineering agency ships from that code.
- Design system as an API. A platform-agnostic token layer built to serve iOS, Android, web and connected TV from one source, with Storybook exposing the real components.
- Old and new UI coexist without breaks on the core journeys. The redesign is scoped to the streaming section; the legacy screens got color alignment and unified buttons.

Head of Platform and Design

2024 – 2025

ChurchDesk (vertical ERP for churches and dioceses — DE / DK / UK / SE / NO / CH) Copenhagen, Denmark · Remote from Berlin

- Turned a funeral-booking brief into a platform capability by building it into the existing calendar and form builder; it then shipped to the whole customer base.
- 70% less coordination time; 90% booking acceptance.
- Designed the web and mobile surfaces in Figma; engineering built them in React and React Native.

Head of Product Design · Interim Head of Product

2023 – 2024

Ninox Software GmbH (no-code B2B application platform — DACH / UK / US) Berlin, Germany

- Owned the design system and established joint governance with engineering. My component work ships in the Ninox app, including the redesign.
- Custom motion easing curves, defined as part of the system.
- Led five direct reports from the Senior Leadership Team; for four months also interim Head of Product, with nine reports across four disciplines.

Product & UX Strategist

2021 – 2022

Hypoport hub SE (shared services arm of listed Hypoport SE) Berlin / Lübeck, Germany · Remote

- Partnered with the executive team to turn a shared-services organization into standard products.

2016 - 2021

- Led the UX team across Germany and NYC for five years; two UX designers reported to me.
- Defined component behavior and specs for the shared design system of a data-dense analytics platform.

2014 - 2016

- Interviews with shop owners showed the design tool was the best part of their day. That finding reversed a 60-second-automation strategy and kept creative control in the product.
- Led the mobile t-shirt designer prototype; it reached production.

2013 - 2014

- Redesigned the mobile checkout for complex customized products; it produced the company's first mobile orders.

2009 - 2012

- Web and print for a global audience. Responsive web experiences, plus substantial print design alongside the digital work.

Work that runs alongside the employed roles.

2016 - Present

Selah – Mindful Transitions

2024 - Present

aperto.bible

Live

A site I designed and built on Astro.

Senior Mentor · [CareerFoundry](#) · 2016 – 2026 · remote · ten years mentoring and coaching designers

UX Designer · *andCulture* · 2012 – 2013 · Harrisburg, Pennsylvania · agency work for startups

Web Designer · *Bajaa.com and freelance* · 2003 – 2009 · Düsseldorf · websites for clients, Adobe Creative Suite

M.A. Leadership

Kairos University, South Dakota, USA

Completed 2026

German · native

English · C2, fluent

Visual craft and brand systems

Typography, composition and color · OKLCH color systems · WCAG contrast · light and dark themes · design tokens (DTCG, Style Dictionary) · responsive layouts from phone to TV · custom motion easing

Figma (auto layout, variables, prototyping) · Affinity suite · Adobe Illustrator, Photoshop and InDesign · Storybook · HTML, CSS and JavaScript · Astro

Websites and landing pages · responsive web · mobile checkout · consumer e-commerce and merchandise platforms · flyers, posters and print design since 2009

Real-code prototypes against production APIs · Claude Code, Claude Projects and Claude skills · an AI fundraising system built end to end · AI-assisted research synthesis

Concept surveys · user interviews · usability tests · conversion-sensitive checkout and booking flows · German native, English C2 · EU work rights

Fast, structured and self-directed · take creative direction and contribute my own ideas · follow a project from first concept through to production and launch · work across visual styles
