EDUCATION

M.A. Leadership

Kairos University, South Dakota, USA
Completed 2026

LANGUAGES

German · native

English · C2, fluent

SKILLS

Design technology

Prototyping in real code against production APIs · a handoff that crosses a company boundary and holds · DTCG tokens in four tiers, Style Dictionary, one source for iOS, Android, web and connected TV · Storybook as the source of truth

Craft and quality

UI quality owned across four surfaces · Figma for the work and for handover · motion carried as shared easing curves · a color engine live in production

Leading, hiring and critique

Nine reports across four disciplines at Ninox, on the senior leadership team · hired two, promoted two · led the Datameer design team across Germany and NYC for five years · a decade at CareerFoundry mentoring and coaching designers, critiquing their work and giving personal feedback

Consistency across markets

One product across six countries at ChurchDesk, audited under the EU Accessibility Act · localized across DACH, the UK and the US

PROFILE

I lead design functions, and the last year went into making the craft hold at scale. At Bibel TV I own UI quality across iOS, Android, web and connected TV. Type, spacing and radius are carried as tokens, so a change reaches every surface at once. I prototype in real code against real production APIs, with Claude Code, and engineering ships from that code.

I own the UI quality bar

across iOS, Android, web and connected TV — type, spacing and radius carried as tokens, so one commit reaches every surface

AI-native in production

agentic engineering introduced from zero. I prototype with Claude Code against production APIs, and engineering ships from that code

EXPERIENCE

Head of Product Design

2025 – Present

Bibel TV (broadcaster in linear-to-streaming transformation — iOS, Android, web and connected TV) · Hamburg + Berlin, Germany

- The quality bar, implemented — six checks, identical on a laptop and in CI, so critique spends its time on judgment rather than on compliance.
- The system builds without me — Storybook as the source of truth, with a prototyping layer on top, so product managers and engineers find the right component and build with it.
- Modern UI foundations — DTCG tokens in four tiers, built with Style Dictionary to serve iOS, Android, web and connected TV from one source. One commit propagates everywhere.
- Craft decided once, then held — a color engine in OKLCH so themes carry even perceptual weight, with WCAG contrast validated inside it.
- Just enough structure, installed from first principles — agentic engineering introduced from zero, in an ambiguous and fast-changing environment with no precedent to copy. It is how the prototypes reach production.

Head of Platform and Design

2024 – 2025

ChurchDesk (vertical ERP — DE / DK / UK / SE / NO / CH) · Copenhagen, Denmark · Remote from Berlin

- Built into the platform, not beside it — booking embedded in the existing calendar, so one build covered weddings and room rentals too. Shipped to every customer. 70% less coordination time, 90% acceptance.
- Six markets, one product — I audited our website and also the websites customers build with the platform, so consistency had to hold in output produced by people we never trained.

Head of Product Design · Interim Head of Product

2023 – 2024

Ninox Software GmbH (no-code business platform — DACH / UK / US) · Berlin, Germany

- Two functions at once, nine reports, four disciplines — Product Design and Product held together, July to October 2023. Senior Leadership Team throughout.
- Hired 2, promoted 2 — and coached the design lead through an engineering relationship that was going badly.

Director of Design

2016 – 2021

Datameer GmbH (collaborative data analytics for top US / CA / UK banks and insurers) · Berlin, Germany · team across Germany and NYC

- Led the design team across Germany and NYC for five years — setting the design bar across both sites.
- Component behavior and specs across the library — I defined how components behaved and what they promised. Motion as custom easing curves.

UX Strategy Lead

2014 – 2016

Spreadshirt (international e-commerce, hundreds of thousands of consumers — 200+ people) · Leipzig, Germany

- Shipped what the company had twice failed to ship — a nine-month seller-experience redesign. Leadership wanted a 60-second automated journey; shop owners valued the design step most, and the strategy moved.

EARLIER CAREER PROGRESSION

Senior Mentor · *CareerFoundry* · 2016 – 2026 · Remote · a decade mentoring and coaching designers

Product & UX Strategist · *Hypoport hub SE* · 2021 – 2022 · Berlin / Lübeck, Germany

Mentor · *Interaction Design Foundation* · 2020 – 2022 · Remote

UX Manager · *HairDirect* · 2013 – 2014 · Lancaster, PA, USA

User Experience Designer · *andCulture* · 2012 – 2013 · Harrisburg, PA, USA

Web Designer & Front-End Developer · *HOPE International* · 2009 – 2012 · Lancaster, PA, USA
