PROFILE

I lead product and design around complex B2B workflows. At Ninox I ran Product and UX together with nine direct reports. At ChurchDesk I turned a manual coordination process into a reusable platform capability. Today at Bibel TV I combine product management, measurable AI experiences and hands-on agentic delivery.

Nine direct reports
Product and UX together at Ninox

70% less coordination
after a manual workflow became a reusable platform capability

+153% / +85%
weekly starts after the iOS and Android AI-feature redesigns

EXPERIENCE

Head of Product Design

2025 – Present

Bibel TV (consumer streaming across iOS, Android, web and connected TV) *Hamburg + Berlin, Germany*

- Lead product design and product management across four platforms, connecting discovery, roadmap decisions, measurement and delivery with an external engineering agency.
- Redesigned the live AI Bible-passage entry. Weekly starts rose 153% on iOS and 85% on Android, comparing four-week averages before and after each release.
- Own one conversational product in development, “Bibel erklärt,” combining product management, design, agentic implementation, structured onboarding and retrieval workflows.
- Built and operate an active n8n content pipeline. October 2026: 11,405 source-linked clips from 3,504 videos, with new material processed every 15 minutes.
- Use GA4 product data at feature level across Bible use, AI-feature use, streaming behavior and live-TV use to shape subsequent product decisions.
- Introduced Claude Code prototyping against real APIs. The external engineering agency reviews running software and reuses prototype code in delivery.

Head of Platform and Design

2024 – 2025

ChurchDesk (vertical SaaS for churches and dioceses across six European markets) *Copenhagen · Remote from Berlin*

- Led product management for the core platform and product design across six European markets.
- Reframed a funeral-booking request as a reusable platform capability built into the calendar and form builder rather than a standalone module.
- Reduced coordination time 70% and reached 90% booking acceptance at the launch customer; the capability then shipped to the full customer base.
- Designed one shared capability for at least four workflow types: funerals, room rentals, baptisms and weddings.

Head of Product Design · Interim Head of Product

2023 – 2024

Ninox Software GmbH (no-code business platform across DACH, the UK and the US) *Berlin, Germany*

- Led Product and Design together for four months: nine direct reports across product design, UX writing, product management and data science.
- Owned the five-person design function's operating model across capacity, allocation, prioritization, team structure and processes as a Senior Leadership Team member.
- Created leveling and growth structures across design and UX writing; ran performance reviews, hired two and promoted two.
- Established Figma-to-Storybook governance with Engineering through a cross-functional working group and documented contribution process.
- Returned later as an independent AI product consultant and designed prompt-to-application onboarding that became the basis for the public Ninox AI beta.

Director of Design

2016 – 2021

Datameer GmbH (enterprise data analytics for regulated banks and insurers) *Berlin · team across Germany and New York*

- Led UX across Germany and New York for five years in data-dense B2B analytics for regulated enterprises.
- Moved design and research into product decisions as the company pursued a new product opportunity, with executive backing for research and design in roadmap conversations.
- Built the research method needed to reach analysts inside banks and insurers whom standard recruiting panels could not access.

EARLIER CAREER PROGRESSION

Product & UX Strategist · *Hypoport hub SE* · 2021 – 2022 · Berlin · helped move bespoke internal services toward standardized offers

UX Strategy Lead · *Spreadshirt* · 2014 – 2016 · Leipzig · international e-commerce product strategy

Senior Mentor · *CareerFoundry* · 2016 – 2026 · Remote · coaching and mentoring product designers

UX Manager · UX Designer · Front-End Developer · *HairDirect* · *andCulture* · *HOPE International* · 2009 – 2014 · Pennsylvania, USA

EDUCATION

M.A. Leadership

Kairos University, South Dakota, USA

Completed 2026

LANGUAGES

German · native

English · C2, fluent

SKILLS

Product and organization leadership

Product and UX leadership · product strategy · portfolio prioritization · outcome teams · capacity and allocation · leveling, hiring and performance reviews · executive partnership

B2B workflow products

Vertical SaaS · no-code platforms · domain workflow discovery · reusable platform capabilities · international markets · complex enterprise software

Applied AI product practice

AI interaction design · conversational products · human control · evaluation through product data · Claude Code · n8n · MCP · agentic prototyping against APIs

Languages and location

German native · English C2 · Berlin-based · EU work authorization · available for regular Hamburg presence
