

Tobias Treppmann

Lead Product Designer, AI Builder · product design leader and hands-on builder

LOCATION Berlin, Germany EMAIL hello@treppmann.design PORTFOLIO treppmann.design/for/babbel LINKEDIN linkedin.com/in/tobiastreppmann

PROFILE

Product design leader and hands-on builder based in Berlin. At Bibel TV I lead design across streaming products and prototype new experiences with Claude Code against real APIs. My work spans conversational AI, multi-platform design systems and product management; at Ninox and Datameer I also led and coached design teams.

Hands-on AI builder

Claude Code prototypes connected to real APIs

Conversational products

Design leadership

Head and Director roles, coaching through craft

EXPERIENCE

Head of Product Design

2025 – Present

Bibel TV (consumer streaming across iOS, Android, web and connected TV) Hamburg + Berlin, Germany

- Lead product design for Bibel TV's streaming experience across iOS, Android, web and connected TV, with product-management and product-owner responsibility for the redesign.
- Prototype new product concepts with Claude Code against real APIs. The external engineering agency works from the web and Android prototypes and reuses their code in delivery.
- Currently designing and developing a Conversational AI Bible Study App. I own its product direction, interface and in-product motion as its sole designer, product manager and developer.
- Designed and shipped an MS Copilot workflow for the viewer-support team. It drafts replies in the team's handbook voice while staff review, edit and send each response.
- Built an AI-assisted fundraising workflow end to end: performance analysis, a Claude Project with clarifying-question loops, a web prototype and a production skill for campaign content.
- Built one design-system source for four Bibel TV platforms.

Head of Platform and Design

2024 – 2025

ChurchDesk (vertical SaaS for churches and dioceses across six European markets) Copenhagen · Remote from Berlin

- Led product management and all product design for ChurchDesk's main platform.
- 70% less coordination time and 90% booking acceptance. Turned a funeral-booking brief into a reusable capability in the platform's calendar and form builder.
- Shipped an AI-assisted accessibility capability that helped church customers meet new legal requirements automatically on websites built and hosted with ChurchDesk.

Head of Product Design

2023 – 2024

Ninox Software GmbH (no-code business platform) Berlin, Germany

- Senior Leadership Team; five direct reports across design and UX writing. Built levelling and growth structures, ran reviews, hired two and promoted two.
- Owned the design system and established joint governance with engineering. The shared operating model connected product teams, designers and front-end engineers around one component system.
- Analyzed thousands of Ninox community posts with Claude.

Director of Design

2016 – 2021

Datameer GmbH (enterprise data analytics) Berlin · team across Germany and NYC

- Led UX across Germany and New York, with two UX designers reporting to me. Represented UX alongside product, engineering and design partners during a new-product pivot.
- Designed data-dense analytics interfaces for regulated banks and insurers, including query builders, pivot tables, aggregated JSON views and sample-based result states.

INDEPENDENT PRODUCT & CONSULTING PRACTICE

Independent product and consulting work that has run alongside employed roles since 2016.

Selah – Mindful Transitions

2024 – Present

Designed and agentially engineered the Mac app end to end, authored production pull requests and shipped it on the Mac App Store.

Ninox AI onboarding

Summer 2025

Designed conversational prompt-to-database onboarding with the CEO and technical co-founder; the generated schema renders in the real editor beside chat.

EARLIER CAREER PROGRESSION

Product & UX Strategist · Hypoport hub SE · 2021 – 2022 · Berlin / Lübeck · productized shared services with executive stakeholders

UX Strategy Lead · Spreadshirt · 2014 – 2016 · Leipzig · consumer print-on-demand platform

UX Manager · HairDirect · 2013 – 2014 · Lancaster, Pennsylvania, USA

User Experience Designer · andCulture · 2012 – 2013 · Harrisburg, Pennsylvania, USA

Web Designer / Front-End Developer · HOPE International · 2009 – 2012 · HTML, CSS, JavaScript

Earlier · Web Designer, Bajaa.com and freelance · 2000 – 2009 · Düsseldorf, Germany

EDUCATION

M.A. Leadership

Kairos University, South Dakota, USA

Completed 2026

LANGUAGES

German · native

English · C2, fluent

SKILLS

AI product design

Claude Code as daily method · conversational UX · prompt and context design · human-in-the-loop workflows · AI-assisted research synthesis · rapid validation

Prototyping in code

agentially engineered SwiftUI, Kotlin and React prototypes · HTML and CSS by hand · some JavaScript · real APIs · Figma prototyping

Design leadership

discovery through delivery · coaching and mentoring · levelling and growth plans · design systems · DTCG tokens · Style Dictionary · Storybook · Figma Variables

Interaction and motion

conversational interface and in-product motion for the Conversational AI Bible Study App · direct manipulation beside chat · error recovery and user control
