EDUCATION

M.A. Leadership

Kairos University, South Dakota, USA
Completed 2026

LANGUAGES

German · native

English · C2, fluent

SKILLS

UX maturity and function leadership

UX maturity raised at Ninox and at Datameer, with executive support secured for research · instrumental in the UX-maturity transformation across Spreadshirt's 200+ person matrix organization · UX standards and design-system governance

People and executive partnership

Senior leadership team · five direct reports including a design lead · C-level presentation across four employers · design-thinking training run for an executive team

Research practice

usertesting.com screening for personas inside regulated institutions · research protocols and executive sponsorship · Dovetail as a shared insight repository · Claude across large corpora

Enterprise and multi-market

Vertical ERP across six countries · no-code business platform across DACH, the UK and the US · analytics for top US, Canadian and UK banks and insurers · German native, English C2

ONGOING

Independent Consultant

Oratio&Co

2016 – Present · Remote

Collaborative leadership coaching and product-strategy consulting.

PROFILE

I lead design functions and I still build. The last year went into AI that runs in production — a support copilot, a fundraising system I built end to end, and prototypes engineering ships from. Before that, fifteen years of enterprise B2B — raising UX maturity at Ninox and Datameer, and stakeholder work across a 200-person matrix organization at Spreadshirt.

UX maturity raised twice

at Datameer from execution function to strategic partner, with executive sponsorship for research secured; at Ninox through assessment with the team

Design at the leadership table

senior leadership team at Ninox, and partnered with a listed group's executive team to productize its service organization

EXPERIENCE

Head of Product Design

2025 – Present

Bibel TV (broadcaster in linear-to-streaming transformation — iOS, Android, web, connected TV) · Hamburg + Berlin, Germany

- AI support copilot, live in production — drafts viewer replies in the handbook's wording, with a restricted-topic list in the system prompt and every send decision human.
- AI fundraising ecosystem, built solo end to end — analysis, prompt architecture, prototype, then a production Claude skill for follow-up content across in-app, web and video.
- AI inside the practice, not only in the product — Claude across thousands of forum posts for sentiment and feature requests, with Dovetail as the shared repository, and prototypes in real code that engineering ships from.
- Product strategy for the platform — competitive analysis against global entrants to the German market, and a differentiation strategy built on local content.
- Design system as an API — DTCG tokens and multi-platform sync across iOS, Android, web and connected TV.

Head of Platform and Design

2024 – 2025

ChurchDesk (vertical ERP for churches and dioceses — DE / DK / UK / SE / NO / CH) · Copenhagen, Denmark · Remote from Berlin

- Product management and design at once — owned the main platform as PM alongside all product design.
- The decision I defended through the build — a client-funded project scoped as a standalone add-on, reframed into a platform capability.
- AI alt-text in production — shipped for EU accessibility compliance under GDPR plus church data-protection law, across six countries.

Head of Product Design

2023 – 2024

Ninox Software GmbH (no-code business platform — DACH / UK / US) · Berlin, Germany

- UX maturity raised with the team, not at it — a self-assessment that gave everyone a shared view of where the organization stood, and moved our goals onto ground it could build from.
- Senior leadership team, five direct reports — including a design lead.
- Covered the succession, then hired it — held Head of Product interim, July to October 2023, then hired the permanent successor. Hired two, promoted two.

Product & UX Strategist

2021 – 2022

Hypoport hub SE (shared services arm of listed Hypoport SE — 100+ people) · Berlin / Lübeck, Germany · Remote

- Service-to-product transformation — partnered with the executive team to productize the service organization, turning case-by-case support into a standard catalog.
- Methodology transfer — ran design-thinking training for executive leadership and service teams.

Director of Design

2016 – 2021

Datameer GmbH (collaborative data analytics for top US / CA / UK banks and insurers) · Berlin, Germany · team across Germany and NYC

- Led the design team across Germany and NYC for five years — and moved design from an execution function to a strategic partner, securing executive support for user research.
- Research inside institutions that make users hard to reach — pioneered iterative usertesting.com screening to get to analysts working inside banks and insurers.

EARLIER CAREER PROGRESSION

Senior Mentor · *CareerFoundry* · 2016 – 2026 · Remote · a decade reviewing and critiquing designers' work

UX Strategy Lead · *Spreadshirt* · 2014 – 2016 · Leipzig, Germany · 200+ people

Earlier · *UX Manager, UX Designer, Web Developer* · 2009 – 2014 · Pennsylvania, USA
